Capitol Preservation Board

Legislative Session-Capitol Hill Transit Program

The Capitol Preservation Board understands one of the major obstacles interested citizens encounter when they visit the Capitol Hill Complex is finding a place to park. The Board would like to make the public feel as welcome as possible during the 2006 Legislative Session and introduce the Capitol Hill Transit Program.

In order to make visiting the Legislature both feasible and efficient, the Board will be providing a transportation plan for Utah citizens coming to the Capitol Hill Complex. "Please give yourself plenty of time for transit, be flexible and take advantage of the Capitol Hill Transit Program. We will provide all visitors free tokens redeemable on all UTA Bus/TRAX lines and Salt Lake City Alliance Program parking lots," said David Hart, Executive Director of the Capitol Preservation Board.

Capitol Transit Program

Parking tokens are available for 60 lots throughout the city totaling to over 20,000 parking stalls. Tokens, downtown guides and maps are available at the Capitol Preservation Board Office-Senate Building Room 110, Senate and House Offices, the Governor's Office and at the Sergeant at Arms.

Many of these lots are located along the UTA bus route #23, which will drop you off at the steps of the Senate Building on Capitol Hill.

The parking lot across from the Delta Center (300 South Temple) is especially convenient. UTA is offering expanded and direct service during peak times.

When possible, carpool with associates to the Capitol Hill Complex as opposed to riding alone.

Capitol Preservation Board web site will have the latest transit information regarding the Capitol Hill Complex. Information and maps can be downloaded for convenience beginning Monday, January 16, 2006. www.utahstatecapitol.utah.gov
